EDUCATION

Master of Science in Software Engineering Jun 2026 – Present

Kennesaw State University

Relevant Coursework: Software Project Planning & Management, Emerging Software Engineering Processes

Bachelor of Science in Software Engineering Aug 2019 – Jul 2023

Kennesaw State University

Relevant Coursework: Software Testing & QA, Operating Systems, Database Systems, Technical Writing

EXPERIENCE

School Technology Assistant (IT Support) Aug 2025 – Mar 2026

Newton County Schools

- Resolved **30+ hardware and software incidents daily** through **IncidentIQ**, documenting tickets and restoring functionality for teachers and staff across the school.
- Managed technology inventory for **300+ Chromebooks**, maintaining **asset records**, tracking device assignments, and supporting accurate equipment availability and accountability.
- Provided direct technical support for **Google Workspace applications** by troubleshooting account and application issues for teachers and staff while minimizing disruptions to daily operations.

Student Assistant (EHS Department)

Jan 2022 – Jul 2023

Kennesaw State University

- Maintained 100% staff training compliance using **Microsoft Excel and Percipio**, tracking employee training records and identifying outstanding requirements through **VLOOKUP/XLOOKUP, Pivot Tables, filtering, and data organization**.
- Developed and maintained **digital audit workflows in ETQ Reliance** to support campus safety inspections, organizing inspection records and improving consistency in departmental compliance tracking.

Web Content Editor

Aug 2019 – Dec 2021

DailyCommune Publishing

- Managed **80+ digital product listings**, researching and validating product information while **reducing website content errors by 20%** through structured content review and quality checks.
- Collaborated with a remote team to coordinate website content updates, resolve listing discrepancies, and maintain accurate product information.

ADDITIONAL EXPERIENCE & PROJECTS

Outty – Adventure-Based Web Application ([GitHub](#) / [Live Application](#))

- Developed an adventure-based web application using **Flutter, Firebase, and JavaScript**, collaborating with a team through **GitHub and Jira**.
- Designed **user flows** and **UI prototypes in Figma** and implemented interactive application interfaces.

StepUp – Undergraduate Capstone ([GitHub](#))

- Developed a responsive fitness web application using **HTML5, CSS3, JavaScript, and Python** to estimate daily step counts from user health metrics.
- Implemented data processing, input validation, and responsive UI functionality as part of a multi-semester capstone project.

Tutor – Independent & Grade Potential Tutoring

- Provided independent tutoring from **2023–2025** and continued as a tutor with **Grade Potential Tutoring from 2025–Present**, providing individualized academic support based on student needs.
- Managed lesson preparation, scheduling, communication, and student progress.

TECHNICAL SKILLS

- **Languages:** Java, C#, JavaScript, Python, HTML5, CSS3, SQL (Basic)
- **Frameworks:** Flutter, Firebase
- **Development:** GitHub, Git, Jira, Figma
- **IT & Data:** IncidentIQ, Google Workspace, Microsoft Office (Excel), ETQ Reliance

CERTIFICATIONS & ACHIEVEMENTS

- Google Project Management Professional Certificate (*Coursera*)
- Earned **3rd Place** at Kennesaw State University's Spring 2023 C-Day Capstone Showcase.
